

The Misanthrope

character analysis

1. For your assigned character, choose apt and precise adjectives that describe his or her character and complexity. Record these adjectives within the body outline. (Consider drawing a line down the middle of the body to show duality if apt.)
2. Complete each statement from the chart as it applies to the character, recording it in the proper location on the body outline. Think deeply—beyond the obvious and superficial.
3. Choose quotations that support your adjectives and statements. Record and arrange these around the body outline.
4. Draw simple pictures of particular objects that are closely related to the character in the corners of the page.
